Portfolio: https://edevsuraj.github.io/explore-our-apps-and-extensions/

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building scalable web applications, REST APIs, admin dashboards, and operational platforms with Node.js, Laravel, React.js, MongoDB, and MySQL. Proven expertise in JWT/OAuth, RBAC, Stripe and Moko Afrika payments, Firebase Cloud Messaging, and third-party API workflows. Since Jun 2026, after resigning from Shine Web Solutions in May 2026, working full-time as an Independent Developer directing AI coding assistants (OpenCode, ChatGPT Codex, GitHub Copilot) to design and ship 6 Chrome Extensions with 500+ installs on top app and 200+ installs each on others with majority USA users, plus 2 Android apps on Google Play and 2 Windows tools. Full ownership of requirements, architecture, QA, and Store publishing.

TECHNICAL SKILLS

Languages: JavaScript, PHP, SQL, HTML5, CSS3

Frontend: React.js, Bootstrap, Responsive UI, Chrome Extension UI (Manifest V3, Content Scripts, Service Workers)

Backend: Node.js, Express.js, Laravel, CodeIgniter, Core PHP, REST API Design, MVC Architecture

Mobile, Extensions and Tools: Android Apps (Google Play), Chrome Web Store (6 Live Extensions), Windows Batch Automation, PWA Concepts

Databases: MongoDB, MySQL - Schema Design, Indexing, Aggregations, Query Optimization

Auth and Security: JWT, OAuth 2.0, Role-Based Access Control (RBAC), SHA-256 Encryption, Secure API Authorization

Notifications and Payments: Firebase Cloud Messaging (FCM), Stripe, Moko Afrika Payment Gateway, Wallet and Transaction Systems

Tools and Practices: Git, Postman, Chrome DevTools, Google Play Console, Core Web Vitals, Agile Workflows

AI Tools and Workflow: OpenCode, ChatGPT Codex, GitHub Copilot - Requirements Definition, Prompt Engineering, AI Code Review, Debugging AI Outputs, QA and Publishing

PROFESSIONAL EXPERIENCE

Independent Developer - Chrome Extensions and Android Apps, Self-Employed | Jun 2026 - Present

- AI-directed development after resignation: Building and publishing own products full-time after resigning from Shine Web Solutions in May 2026 by defining requirements and directing OpenCode, ChatGPT Codex, and GitHub Copilot on what to build and how to build it.
- Traction: 6 Chrome Extensions live with 500+ installs on Lock Website and 200+ installs each on other extensions, majority users from USA. 2 Android apps live on Google Play plus 2 Windows automation tools.
- Ownership and QA: Owned product direction, Manifest V3 architecture, prompt workflows, code review, manual testing, Store listings, updates, and user support.

Full Stack Developer, Shine Web Solutions | Jun 2024 - May 2026

- REST APIs and Dashboards: Shipped scalable REST APIs with Node, Express, Laravel and React admin dashboards for ops, roles, and monitoring.
- Auth, Payments and Integrations: JWT/OAuth, RBAC, Stripe / Moko Afrika flows, FCM, third-party APIs with Postman-tested endpoints.

PHP Developer, Logibloq IT Services | Dec 2023 - Jun 2024

- Websites, admin panels, backend systems in CodeIgniter/Core PHP with MySQL CRUD and integrations.

Web Developer, Kutumbh Care Pvt. Ltd. | Mar 2022 - Dec 2023

- Business websites and systems in Laravel, JS, HTML, CSS, Bootstrap with workflows and DB integrations.

INDEPENDENT PRODUCTS - PUBLISHED APPS AND EXTENSIONS

Built full-time after resigning from Shine Web Solutions in May 2026 through AI-directed development using OpenCode, ChatGPT Codex, and GitHub Copilot - I defined requirements and guided AI on what and how to build. Portfolio: https://edevsuraj.github.io/explore-our-apps-and-extensions/

Chrome Extensions Developer, Self-Employed / Indie | Jun 2026 - Present

- Lock Website - 500+ installs, USA majority: Password-protect sites by domain, SHA-256, per-tab sessions, subdomain matching.
- Custom Tab Wallpaper - 200+ installs: Custom image/video new-tab wallpaper; uploads or remote URLs.
- SiteSwift Speed Audit - 200+ installs: One-click audit for slow resources, Core Web Vitals, SEO fixes.
- Indian Fake Filler - 200+ installs: Realistic Indian test data, saved prefs, smart randoms for QA.
- Remindy - 200+ installs: Reminders with new-tab countdowns + notifications.
- Yogi Adityanath New Tab - 200+ installs: Inspirational new-tab with EN/HI quotes.
